manufacture products that  
exceed your expectations and  
make your message stick!

# Custom Decals

we have the knowledge & selection to meet your specific needs.

There are many options involved when selecting the ideal decal for your specific application. From die cut (free form shape) to square cut, we offer custom decals in sizes from 1/2" to 600 square inches. We provide material & adhesive combinations from white vinyl to reflective and ultra removable to rough surface permanent adhesive. **We have the knowledge and selection to tackle your toughest projects.**

## stock shapes & printing

- We can make your decal from simple popular stock shapes or create your own die cut shape for an inside or outside application.
- Our spot color UV cured inks offer resistance to the sun, chemicals and abrasion.
- Economical option to showcase brand information, issue safety warning, or label products & machinery.

## materials, adhesives, & more options!

From white vinyl to brushed chrome or clear polyester, we offer adhesives that meet your simple or extreme application. Choose from permanent, removable, ultra removable adhesive, or static cling.

Success in our eyes  
is exceeding your  
expectations.

# Stock Shape Decals

we make it easy & economical with over  
120 popular stock shapes & sizes

As the leading manufacturer of decals, we make it easy to find the ideal decal for your next project. Stock Shapes are an economical and easy way to choose a popular size & shape. With over 120 options and 11 material and adhesive combinations, we've got you covered!

**Size & shape options:** Over 120 of the most ordered shapes and sizes from 1" to 8". Squares, Rectangles, Circles, Ovals, and more!

**Materials & adhesives:** We offer a variety of white, clear, and chrome materials with ultra removable, removable, permanent adhesives, or static cling options.

**Imprint:** Outdoor durable printing is available up to 5 years on screen spot color, screen full color & digital full color. As a G7 Master Printer, we are able to produce vibrant full color on every material and offer an exact color match option with the use of spot colors.

**Additional protection or services:** We have the ability to print white ink to create a decal that is inside or outside facing. Optional packaging options range from shrinkwrapping, polybagging, bundling or banding. Value-added services include consecutive numbering, bar coding, and more. No matter what the need, we have the experience and knowledge to find you the perfect solution.

We specialize in creating exceptional products for exceptional needs.

# Hard Hat Decals

11 popular shapes in  
4 durable materials

Hard Hat Decals are ideal for construction, iron workers, electricians, boilermakers, carpenters, glaziers, or any occupation that requires the safety of a hard hat. Standard materials are white, yellow, frosty clear, and reflective. They are easy to apply, waterproof, and outdoor durable. Choose from one of our most popular shapes in spot or full color. Proudly Union made in the USA and OSHA compliant.

## light reflective hard hat decals

Safety means being seen! It's important for every worker on your team to be visible at all times, especially in low light or nighttime situations. Our reflective hard hat decals are ideal for emergency workers or facilities with less lighting.

# Idento<sup>®</sup> Identification

stick your contact info or id on  
equipment or tools

Provide your customers with easily accessible contact and service information using Idento<sup>®</sup> Identification Decals. Simply add information to your equipment or machinery so customers will always know who to contact. Extra durable decals with optional consecutive numbering provide easy product identification or tracking.

## material options

Choose from shiny chrome, brushed chrome, or gold polyester for dimensional stability. White vinyl easily conforms to products.

Add company location, website,  
or phone number, and/or  
identify equipment with a  
unique number.

# chrome polyester Idento® Identification

Our most popular material makes it easy to identify products you've already sold with a continuous advertising opportunity on all your equipment or tools. Chrome polyester offers eye-catching durability, provides unlimited identification, and numbering opportunities.

# Durable Decals

overlaminated, reflective,  
& rough surface

**Overlaminated decals:** protects decals from abrasives, chemicals, frequent cleanings, or power washings for a long-lasting application.

**Reflective decals:** enhances visibility in low light conditions when illuminated by a light source.

**Rough surface decals:** designed for greater adhesion on cold or textured surfaces like containers, machinery, and equipment.

We make the best decals for harsh or extreme conditions and offer many solutions for your specific needs. Contact us today for a tailor-made decal for your next project.

# Full Color Decals

endless color and printing options

When you are looking to create a vibrant, full color decal, we have a variety of print options that will suit all your needs including screen print four-color process, digital printing, and HD resolution offset printing. Each print method has its own unique quality that sets it apart. As a qualified G7 Master Printer, we provide unparalleled quality when it comes to color and the ability to reproduce consistent color decals no matter how you choose to print them. All of our full color options have the opportunity to be printed with face or back adhesive and can include white ink.

## EMERGENCY SHUTDOWN INSTRUCTIONS

### GAS

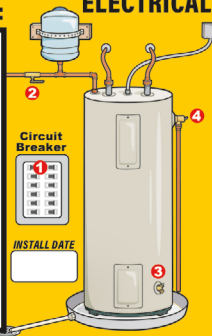

### TO AVOID DAMAGE WHEN LEAKAGE OCCURS:

- 1. TURN THE GAS OR ELECTRIC OFF.**  
Gas: Turn the dial on top of the thermostat from the ON to the OFF Position.  
Electric: Turn the power supply OFF to the water heater at the CIRCUIT BREAKER.
- 2. TURN THE WATER SUPPLY OFF.**  
Twist the handle of the water valve above the water heater clockwise until it stops. (If water does not stop, turn off the main water valve).
- 3. DRAIN WATER HEATER IF NECESSARY TO AVOID WATER DAMAGE.**  
Attach a garden hose to the drain faucet connection at the bottom of the water heater. Run the other end of the hose to a lower location where hot or rusty water won't cause damage.
- 4. PULL HANDLE UP ON RELIEF VALVE**  
Allow air to enter the heater.
- 5. THIS HEATER MAY HAVE AN EXTENDED WARRANTY AND GUARANTEE.**  
Repairs or maintenance of any type performed by an unauthorized technician may void coverage.

# Vinyl Cut Decals

transfer the letters and logo

Vinyl Cut Decals are a unique cut vinyl made of shapes or letters that transfer to an object. Add branding to windows, laptops, vehicles, machinery or anything else for an application that looks like it was custom printed. Vinyl cut shows exactly what you need or want to display without any background. Premasked and ready for easy application!

Lettering or graphic are cut to shape & transferred to the surface using a transfer layer.
